

Exp No. -4 Create a simple cloud software application for Library book reservation system for SIMATS library using any Cloud Service Provider to demonstrate SaaS

Done by: Juhi Surin

Register no.: 192525148

Aim:

To develop a cloud-based Library Book Reservation System for SIMATS Library using Zoho Creator (SaaS) to enable students to reserve books online.

Procedure:

1. Log in to Zoho Creator and create a new application named Library Book Reservation System.
2. Create a Library Book Reservation Form with the required fields.
3. Configure field types such as dropdown, date, email, and number.
4. Create an On Success workflow to display a reservation confirmation message.
5. Enter sample reservation details and submit the form.
6. Verify that the reservation details are stored successfully in the cloud.

Implementation Steps:

1. Open Zoho Creator and create the application.
2. Design the reservation form with student and book details.
3. Add validation and appropriate field properties.
4. Create the workflow using Deluge script.
5. Test the application with sample records.
6. Confirm that the reservation data is saved and the confirmation message is displayed.

Output:

1. Form

The screenshot shows the Zoho Creator Form Builder interface for a 'Library Book Reservation Form'. The interface is divided into three main sections: Basic Fields, Field Properties, and a central form preview.

Basic Fields: A sidebar on the left contains various field types categorized into 'Basic Fields'. The visible fields include: Name, Email, Address, Phone, Single Line, Multi Line, Number, Date, Time, and Drop Down.

Field Properties: A sidebar on the right shows the properties for the selected 'Student Name' field. It includes: Field name (Student Name), Field link name (Student_Name), Validation (Mandatory checkbox), Display Fields (Prefix, First Name, Last Name, Suffix checkboxes), and Data Privacy.

Form Preview: The central area displays the form structure with the following fields: Student Name, Registration Number, Department, Email ID, Phone Number, Book Title, Book ID, Author Name, Reservation Date, and Reservation Status.

The bottom of the interface features a status bar with a trial expiration notice: 'Trial expires in 9 days | Upgrade | Get started faster! | Help'.

2. Workflow

The screenshot shows the Zoho Creator Workflow Builder interface for a 'Library Book Reservation Form'. The interface is divided into three main sections: Condition, Data Access, and a central script editor.

Condition: A sidebar on the left contains various condition types categorized into 'Condition'. The visible conditions include: If, else if, else, and conditional if.

Data Access: A sidebar on the left contains various data access actions categorized into 'Data Access'. The visible actions include: add record, fetch records, aggregate records, update record, update multiple fields, for each record, delete records, and Miscellaneous.

Script Editor: The central area displays a script editor with the following code: `1 alert "Book Reservation Submitted Successfully!";`

The bottom of the interface features a status bar with a trial expiration notice: 'Trial expires in 9 days | Upgrade | Get started faster! | Help'.

3. Report

The screenshot displays a web application interface for a library book reservation system. The main content area shows a table titled 'Library Report' with the following data:

Student Name	Registration Number	Department	Email ID	Phone Number	Book Title	Book ID
Rahul S	221501056	ECE	rahul@gmail.com	+919012345678	Computer Networks	BK310
Priya Sharma	221501025	IT	priya@gmail.com	+919123456789	Operating Systems	BK205
Arun Kumar	221501001	CSE	arun@gmail.com	+919876543210	Data Structures	BK101

The interface includes a sidebar with navigation options: 'Library' and 'Library Report'. The bottom status bar indicates 'Showing 3 of 3' records and the user 'Juhi Sakshi'.

Result:

Thus, a cloud-based Library Book Reservation System for SIMATS Library was successfully developed using Zoho Creator (SaaS), enabling students to reserve library books online.
